

CodeWarrior® Development Suites for Networked Applications

CW-DS-NETAPPS

Last Updated: Aug 30, 2023

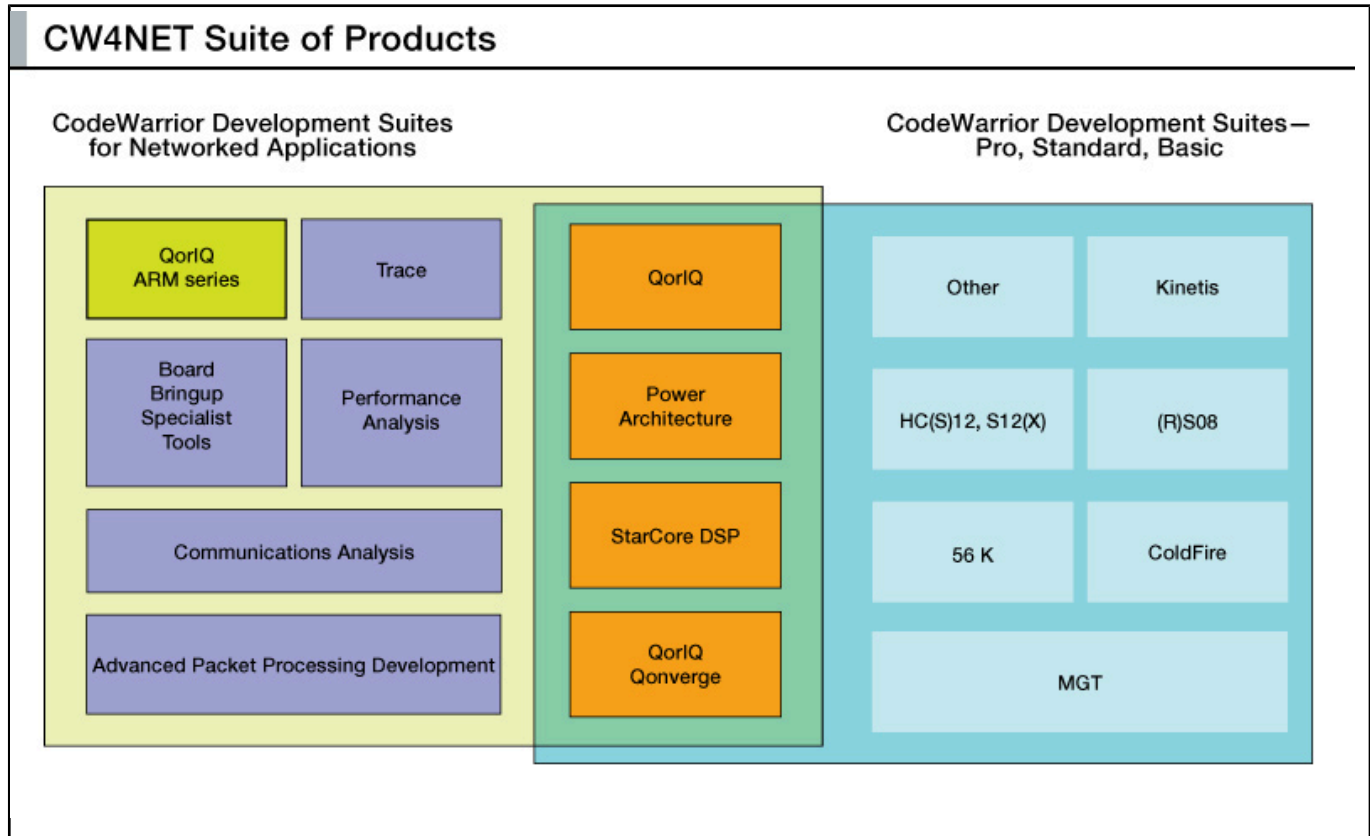

Enhance the success of your networked design by utilizing one of the suites from the CodeWarrior® Development Suites for Networked Applications. The following are the benefits you will gain from our networking-focused suites:

- The development suites support multiple architectures including Power Architecture® technology, Arm® technology, and StarCore® DSP cores
- Receive upgrades to newer software packages including complete additions to suites
- All suites offered on an annual basis – purchase for as long as you will need the tools

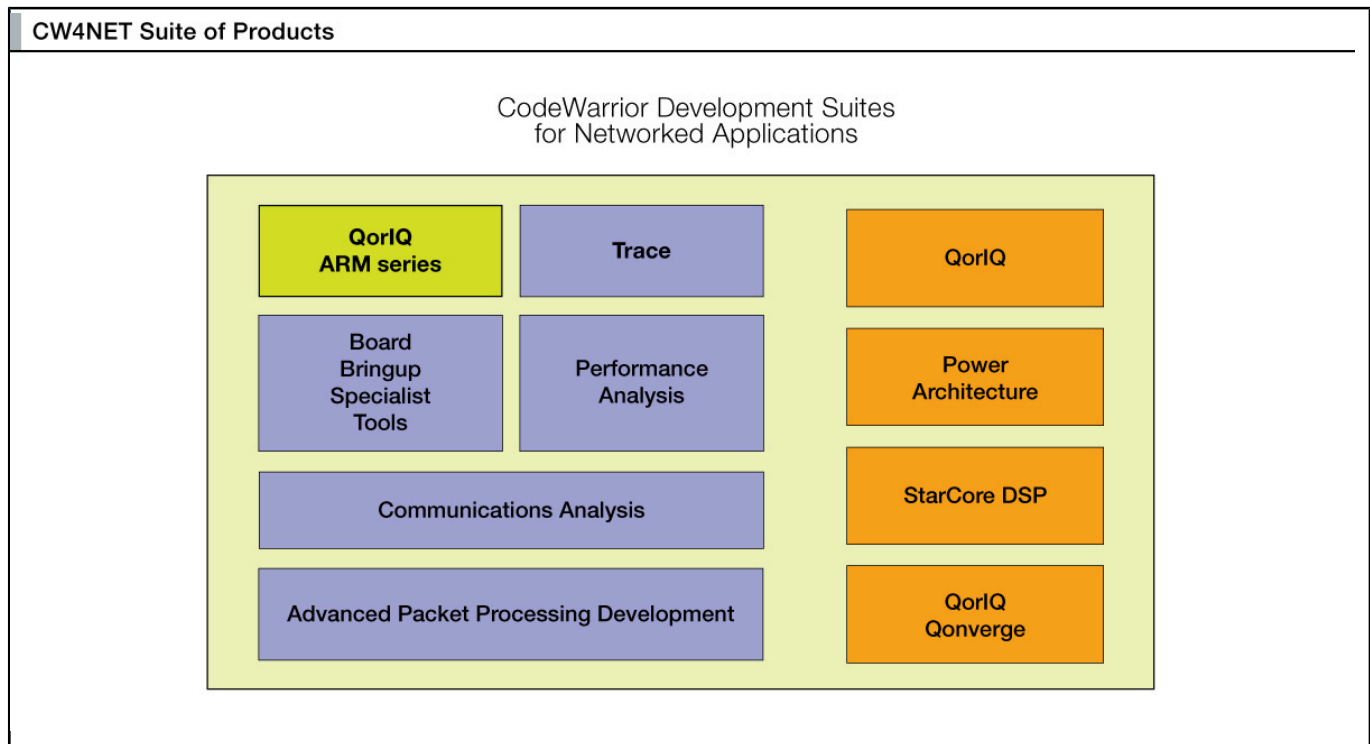

*contact your NXP® sales representative for special annual buy-out terms when you need to archive copies of the software.

We created the differing suites to address different roles within our customer's companies including software developers (developer suite), board bring-up experts (specialist suite) and network architects (architect suite).
