# FRDM Development Board for MCX C242 MCUs

FRDM-MCXC242

Last Updated: Dec 23, 2025

FRDM-MCXC242 is a compact and scalable development board for rapid prototyping of MCX C242 MCU. It offers industry standard headers for easy access to the MCU's I/Os, integrated open-standard serial interfaces and on-board MCU-Link debugger. Additional tools like our Expansion Board Hub for add-on boards and the Application Code Hub for software examples are available through the MCUXpresso Developer Experience.
