

High-Pressure Tire Pressure Monitoring Sensor (TPMS) Family

FXTH8715

Not Recommended for New Designs

This page contains information on a product that is not recommended for new designs.

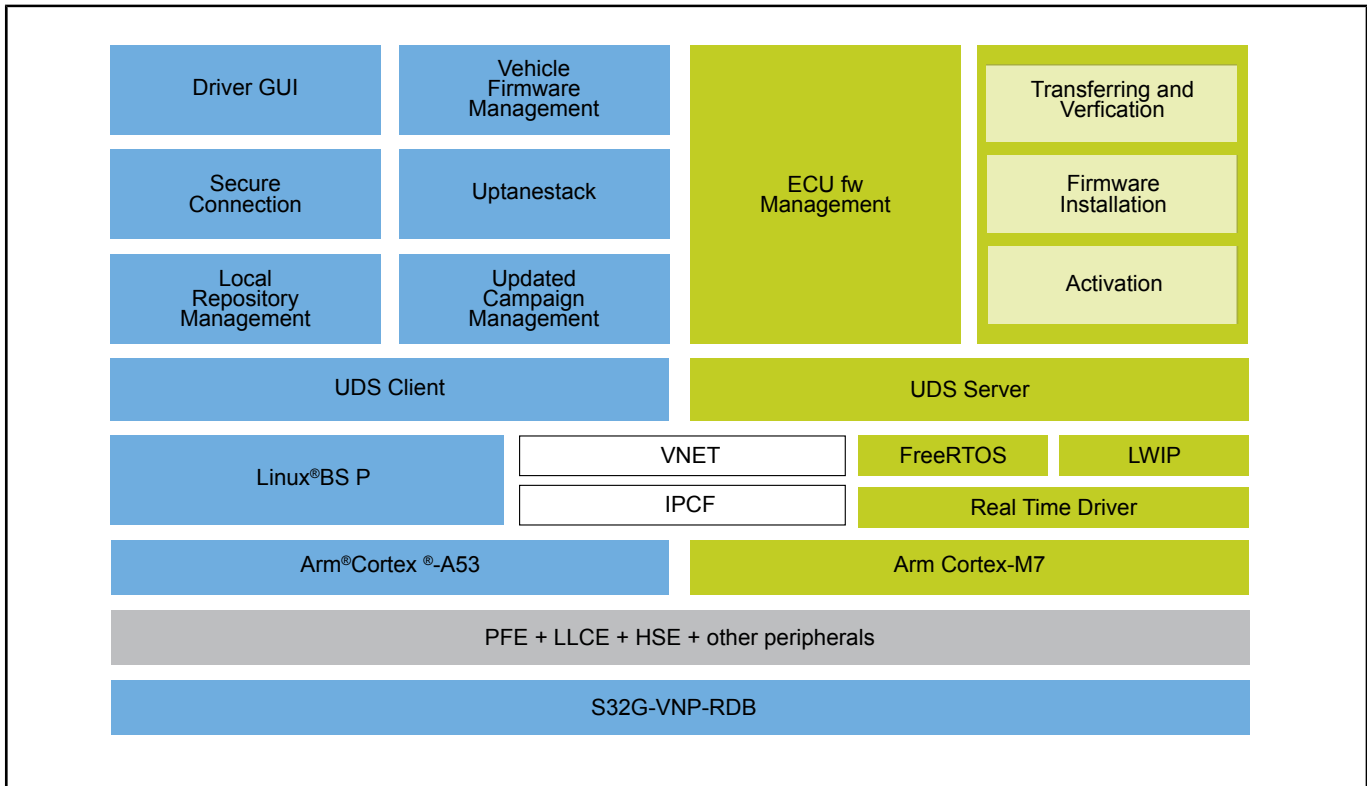

Last Updated: Oct 25, 2023

[NTM88](#) is the recommend family for new designs as the FXTH8715 family is discontinued.

The FXTH8715 high-pressure family of tire pressure monitoring sensors (TPMS) supports ranges of 100-1500 kPa for medium/heavy duty trucks, buses, and construction vehicles.

- Integrates an 8-bit microcontroller (MCU), pressure sensor, XZ-axis or Z-axis accelerometer and RF transmitter
- Offers the lowest power consumption and dual-axis accelerometer architecture, enables small module design for lighter weight and space-constrained applications
- Offers flexibility of software development and accelerated time-to-market
