

Greenbox 2 for Vehicle Electrification Development Platform

GREENBOX

Preproduction

This page contains information on a preproduction product. Specifications and information herein are subject to change without notice. For additional information [contact support](#) or your sales representative.

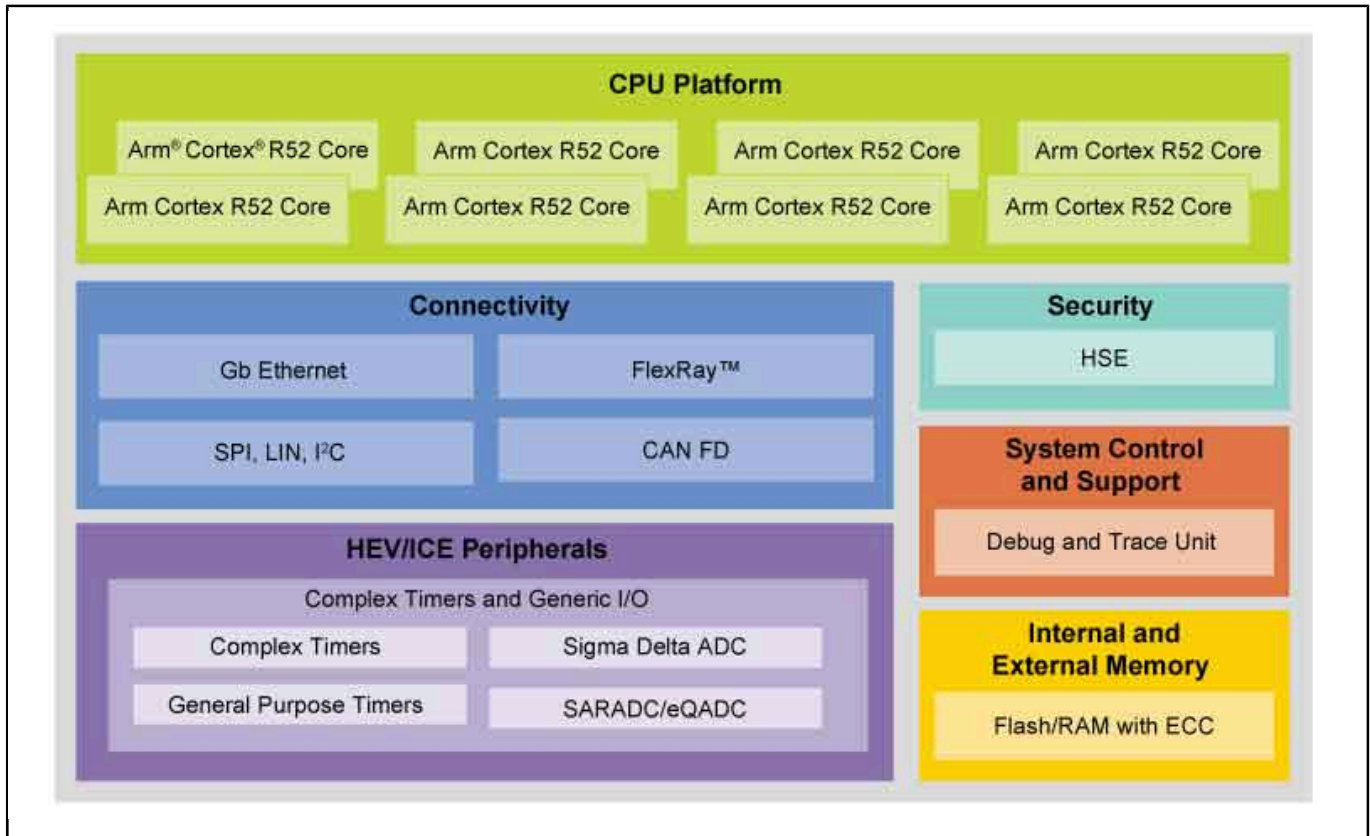

Last Updated: Sep 13, 2022

The GreenBox 2 is no longer recommended for new designs. For new designs please visit the [GreenBox 3](#) webpage.

The NXP GreenBox is a development platform providing advanced performance, peripherals, and multi-core Arm® ecosystem for engineers to begin development on NXP's next generation of Hybrid Electric Vehicle (HEV) and internal combustion engine microcontrollers.

GreenBox is only available for purchase for approved customers. Please contact your local [NXP sales representative](#) for approval prior to ordering. Each order will be reviewed before being fulfilled. We apologize for any experienced inconvenience as a result of this approval process.
