

IoT Audio

IOT-AUDIO

Last Updated: Feb 21, 2023

NXP Audio IoT is based on the i.MX 8M processor that provides excellent audio, voice and video processing, and low-power capabilities that create scalable, safe and secure applications. By using an internal adaptive DC-to-DC converter, you get ample headroom for major improvements in audio quality. The i.MX 8M processor provides excellent audio, voice and video processing, and low-power capabilities that create scalable, safe and secure applications.
