

Kinetis K10–50 MHz, Mixed–Signal Integration Microcontrollers (MCUs) based on Arm[®] Cortex[®]–M4 Core

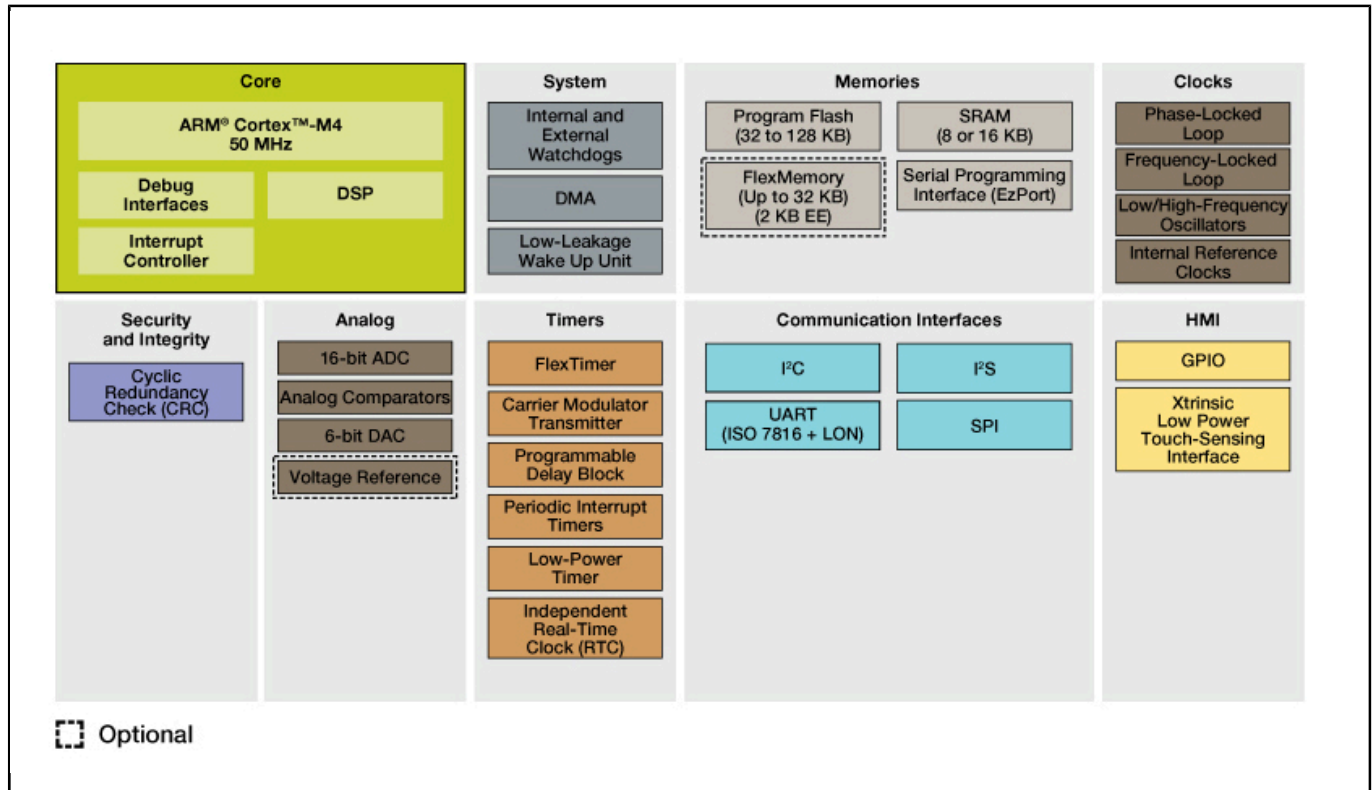

K10_50

Last Updated: Oct 14, 2024

The Kinetis K10 50 MHz family of baseline, low-power MCUs offers high feature integration in a small form factor, making them ideal for space-and cost-constrained applications.

- Provides a scalable entry point into the mid-performance Kinetis portfolio
- Includes a rich suite of analog, communication, timing and control peripherals to accommodate a wide range of requirements
- Enables performance efficient designs
- Shares the comprehensive enablement and scalability of the Kinetis portfolio
