

Kinetis® K20-100 MHz, Full-Speed USB, Mixed-Signal Integration Microcontrollers based on Arm® Cortex®-M4 Core

K20_100

Last Updated: Sep 10, 2024

The Kinetis® K20 100 MHz MCU family offers a scalable portfolio with various levels of integration, featuring a rich suite of analog, communication, timing and control peripherals to accommodate a wide range of requirements.

- Maximizes board space and enhances performance with minimum-length interconnections
- Enables miniaturization of existing applications
- Provides performance efficiency with low power
- Delivers significant BOM savings through smart on-chip integration
- Shares the comprehensive enablement and scalability of the Kinetis portfolio
