

Kinetis® K22-100 MHz, Cost Effective, Full-Speed USB Microcontrollers (MCUs) based on Arm® Cortex®-M4 Core

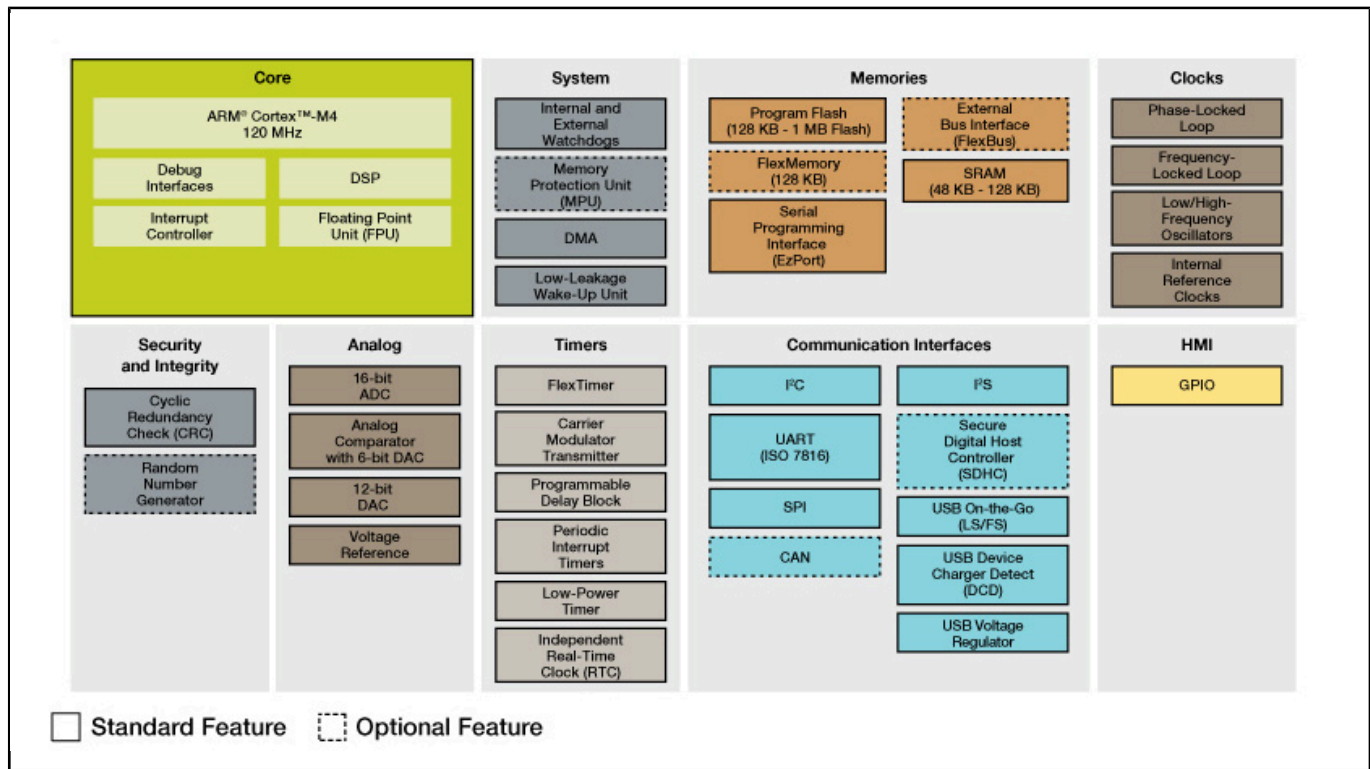

K22_100

Last Updated: Mar 5, 2025

The Kinetis® K22 100 MHz USB MCU family supports cost-sensitive applications requiring low power flexibility and processing efficiency.

- Offers analog, communication, timing and control peripherals to meet diverse requirements
- Leads the industry in low-power performance efficiency
- Smart on-chip integration significantly reduces bill-of-materials costs
- Shares the Kinetis portfolio's comprehensive enablement and scalability
