

MC34932/S H-Bridge, Brushed DC Motor Driver, 5–36 V, 5 A, 11 kHz/20 kHz

MC34932

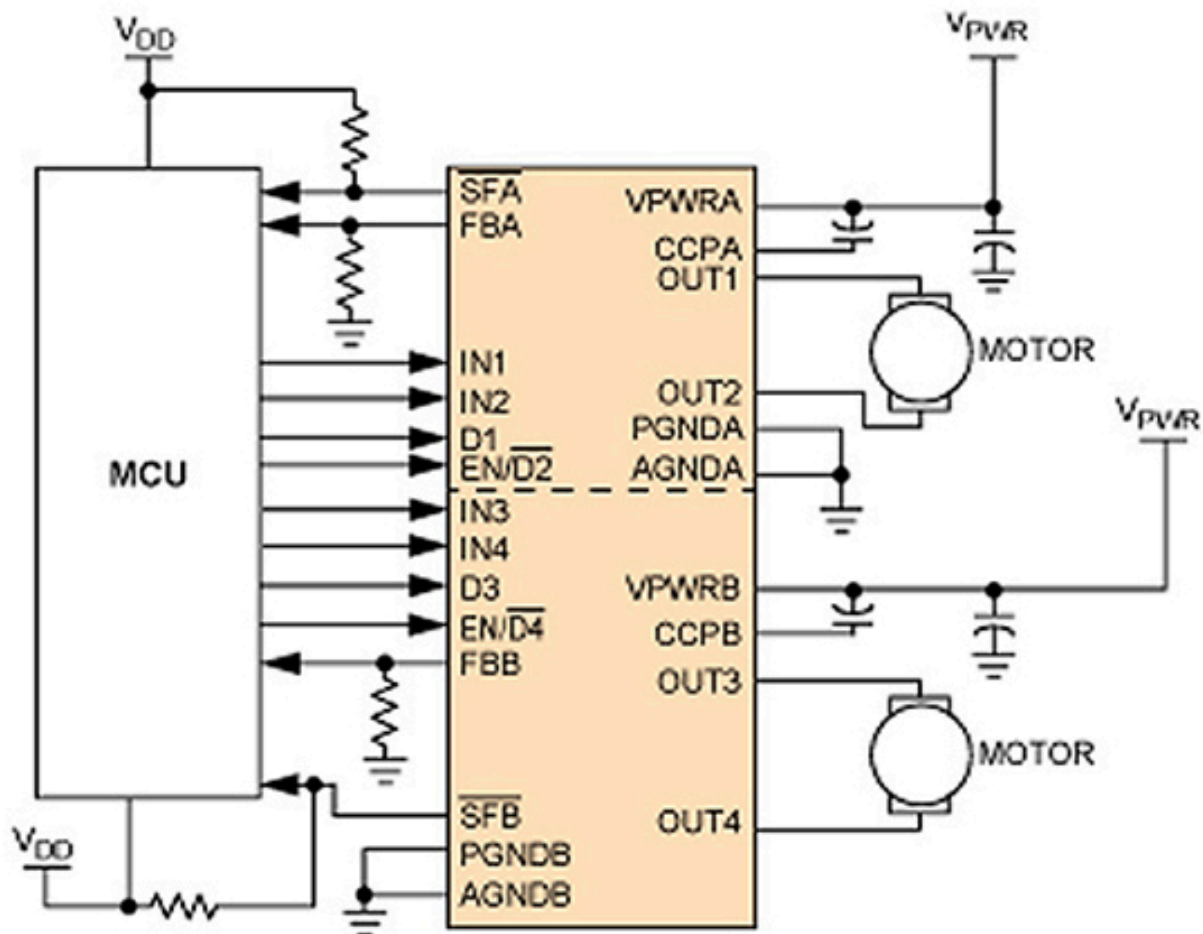

Last Updated: Jun 17, 2025

The NXP efficient 36 V/5 A H-Bridge DC motor drivers in the same package.

- Features real-time load current monitoring and automatic thermal back-off ensuring high availability operation in demanding high-current, high-temperature industrial applications
- Designed primarily for DC brushed and DC servo motor driver applications within the current and voltage limits stated in this specification
- Powered by SMARTMOS® technology
- [Processor Expert® component for medium voltage H-Bridge](#) products enables rapid embedded application development.
