

Flexis 32-Bit ColdFire® V1 MCUs

MCF51MM

Last Updated: Jan 8, 2026

The MCF51MM256/128 provides ultra low-power operation, USB connectivity, graphic display support and unparalleled measurement accuracy, all in a single 32-bit microcontroller (MCU), allowing designers to create more fully featured products at a lower cost. The MCF51MM256/128 is ideal for medical applications or other applications requiring a significant amount of precision analog such as instrumentation and industrial control. The MCF51MM256/128 is part of the Flexis MCU series.
