Evaluation Kit for MCX N94x MCUs

MCX-N9XX-EVK

Last Updated: Oct 15, 2026

MCX-N9XX-EVK is a full featured evaluation kit for prototyping of MCX N94 / N54 MCUs. They offer industry standard headers for access to the MCU's I/Os, integrated open-standard serial interfaces and an on-board MCU-Link debugger with power measurement capability. Additional tools like our Expansion Board Hub for add-on boards and the Application Code Hub for software examples are available through the MCUXpresso Developer Experience.
