

# PowerQUICC® Processor with CPM (2 SCC, 1 SMC), 10/100 Ethernet

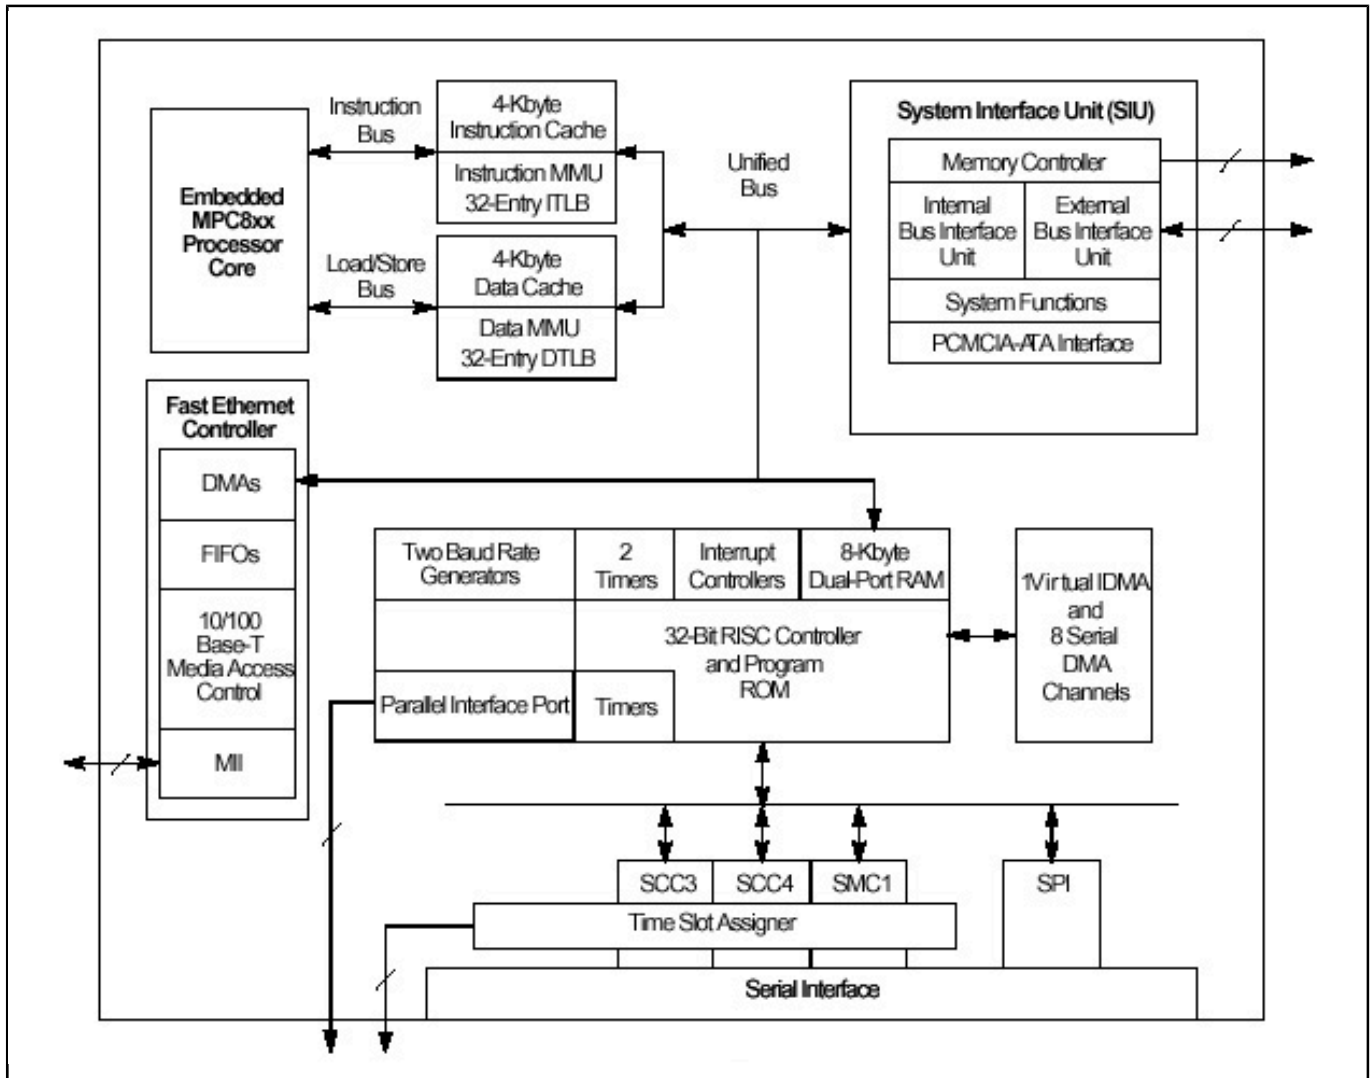

## MPC852T

Last Updated: Apr 8, 2022

The MPC852T PowerQUICC® processor delivers a versatile, integrated solution for controller applications such as communications and networking products.

- Offers ideal support for ethernet to ethernet applications such as line card
- Provides superior performance over traditional architectures by offloading communications intensive processing from the embedded core
- Includes strong third-party tools support through NXP®.s Design Alliance Program
