

Development System Based on QorIQ® P1022 Processor with COM Express Module

P1022COME-DS

Last Updated: Dec 23, 2025

NXP® COM Express development systems provide an I/O-rich carrier blade emulating the QorIQ® processor embedded in a plug-in module based on the COM Express form factor. This module/carrier combination provides unparalleled development flexibility. The P1022COME-DS-PB development includes a production-ready P1022 COM Express module with all of its functionality available on the carrier card. The P1022COM Express module is shown in the displayed block diagram.
