

USB NFC Integrated Solution

PN5331B3HN

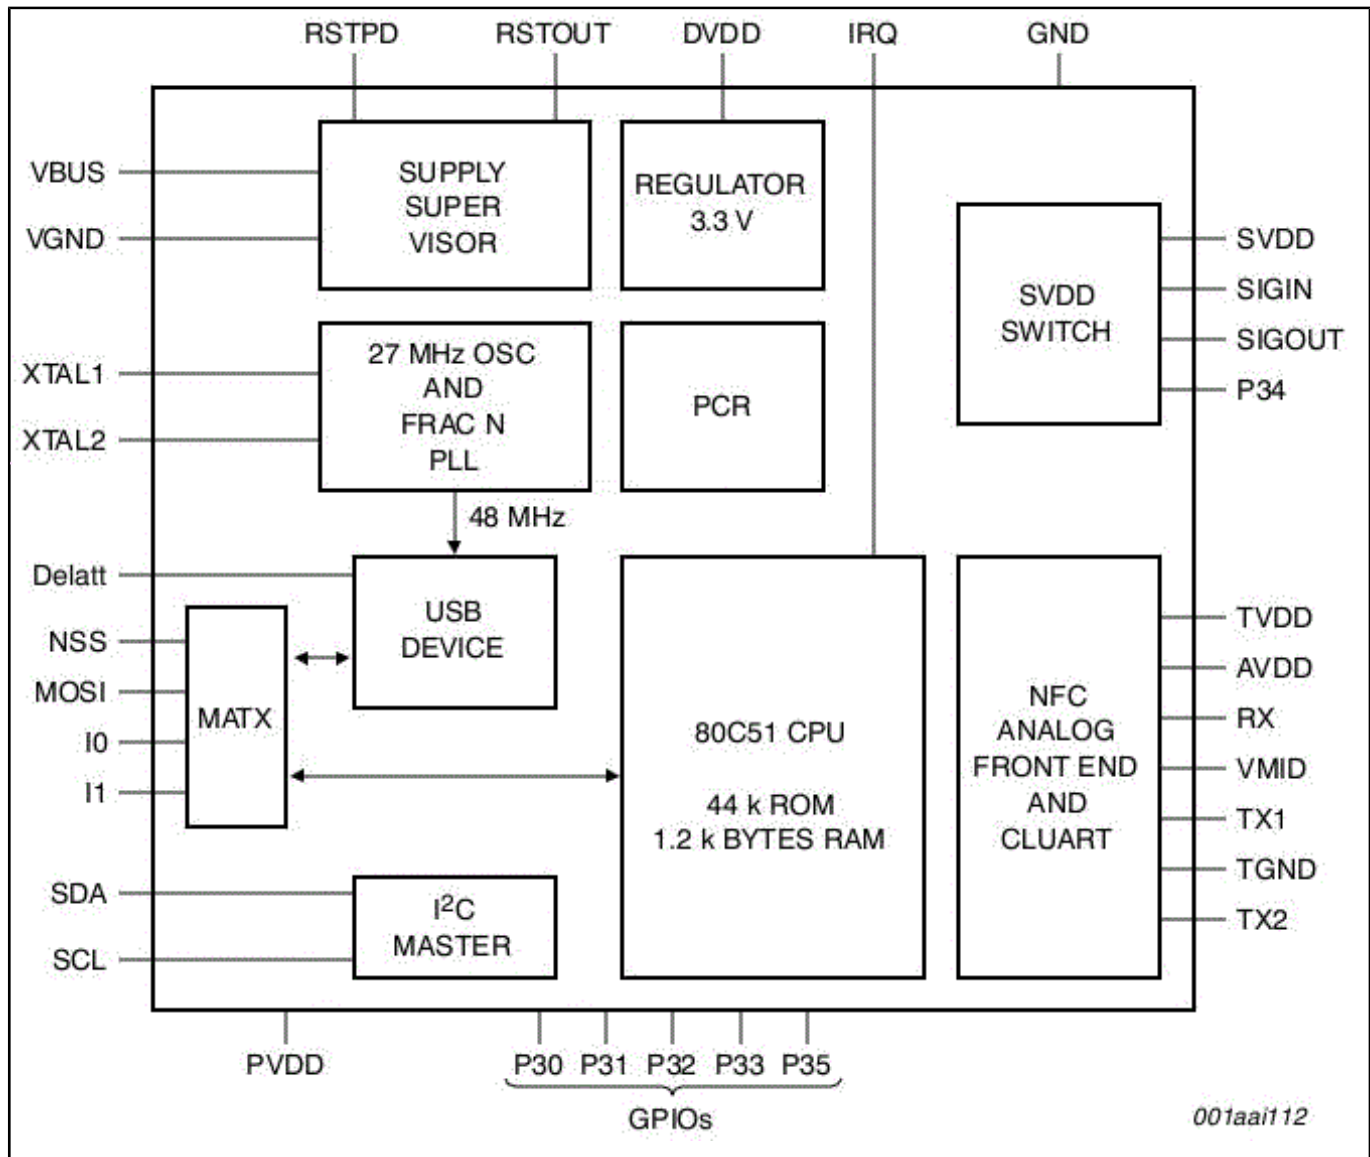

Not Recommended for New Designs

This page contains information on a product that is not recommended for new designs.

Last Updated: Apr 8, 2022

PN533 is a highly integrated transceiver module with USB interface for contactless communication at 13.56 MHz based on the 80C51 microcontroller core supporting different card and reader/writer operating modes. This part is not recommended for new designs. For new designs requiring an USB interface we recommend [PN7462](#).
