

1-Port eUSB2 to USB2 Redriver

PTN3222

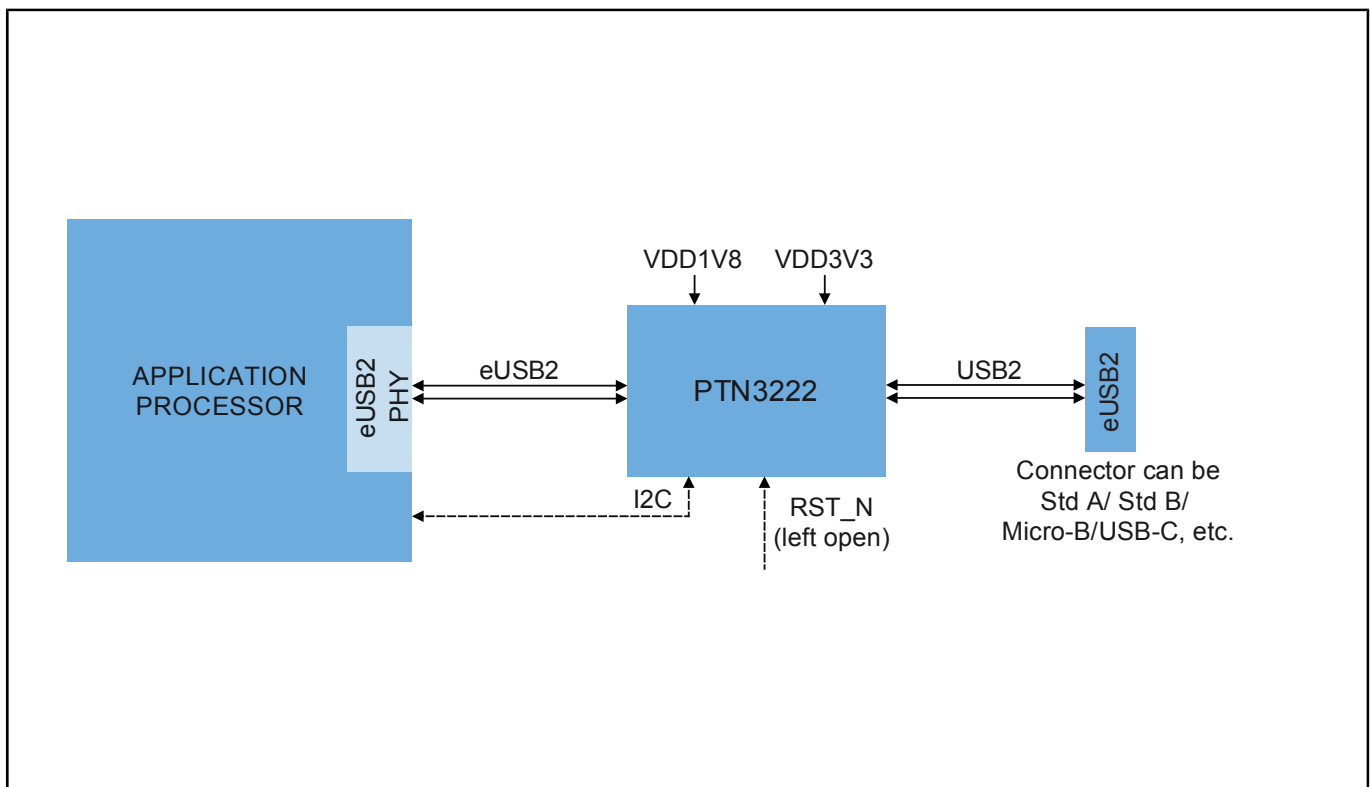

Last Updated: Dec 13, 2022

The PTN3222CUK and PTN3222GM devices are 1-port eUSB2 to USB2 redrivers, enabling the interface of advanced SoC on the latest process nodes with traditional legacy USB2 devices over long PCB traces. These devices have configuration options of both eUSB2 and USB2 signals that enable fine tuning for a wide range of applications.
