

HVBMS Battery Management Unit with S32K344 (BMU)

RD-K344BMU NEW

Preproduction

This page contains information on a preproduction product. Specifications and information herein are subject to change without notice. For additional information [contact support](#) or your sales representative.

Last Updated: Aug 3, 2022

Available to selected customers only (non-disclosure agreement (NDA) required), please contact your local [NXP sales representative](#) for more information.

The RD-K344BMU is a reference battery management unit (BMU) for development purposes. It is ideal for rapid prototyping of a high-voltage battery management system (HVBMS) hardware and software. This board contains several NXP devices including S32K344, FS26, MC33665A, HB2000, TJA1145A, PCA2131, NBP8 and MC40XS6500.

This board is part of the [RD-HVBMSCTBUN](#) HVBMS reference design bundle using ETPL.
