

5 W Multi-Coil Wireless Charging Transmitter

RDWCT-5WTXAUTO

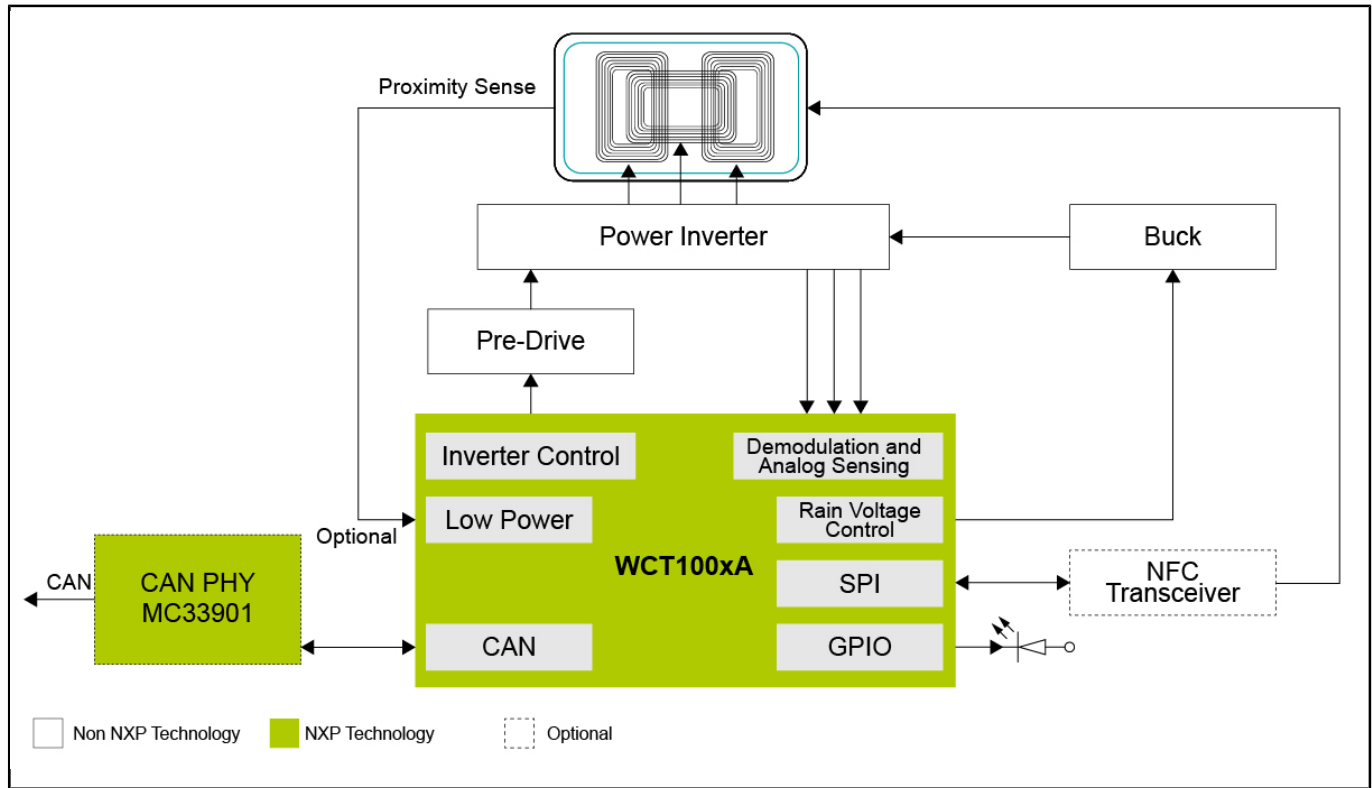

Last Updated: Jun 11, 2025

The NXP® 5 W multi-coil transmitter reference platform is designed for automotive wireless charging applications based on the NXP MWCT1003AVLH transmit controller IC.

- The controller IC manages and performs all control functions necessary to implement a wireless charging transmitter solution.
- Provides high-performance wireless charging system while taking the complex operating environment of a vehicle into consideration.
