

S32R47 Imaging Radar Processor Evaluation Board

S32R47-EVB

Preproduction

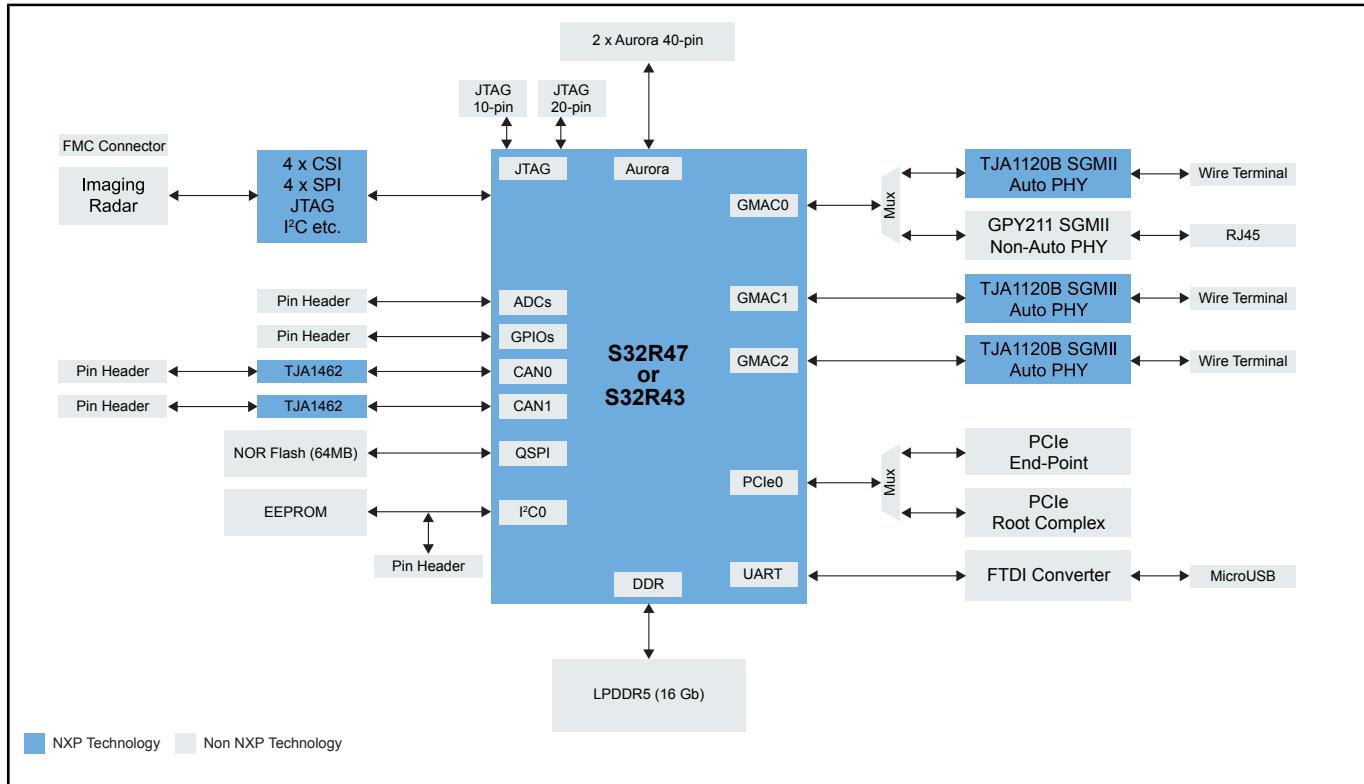

This page contains information on a preproduction product. Specifications and information herein are subject to change without notice. For additional information please contact your sales representative.

Last Updated: Oct 22, 2025

The S32R47 evaluation board is available for selected customers with an approved NDA. For additional information, contact support or your local sales representative.

The S32R47 EVB is an evaluation board for the S32R47 imaging radar processor and is accompanied by schematics and layout documents. It acts as a reference design and also allows connection to NXP's range of Radar Transceiver (RF) kits which are available separately.
