

Mini High-Speed CAN System Basis Chip with Standby Mode and Watchdog

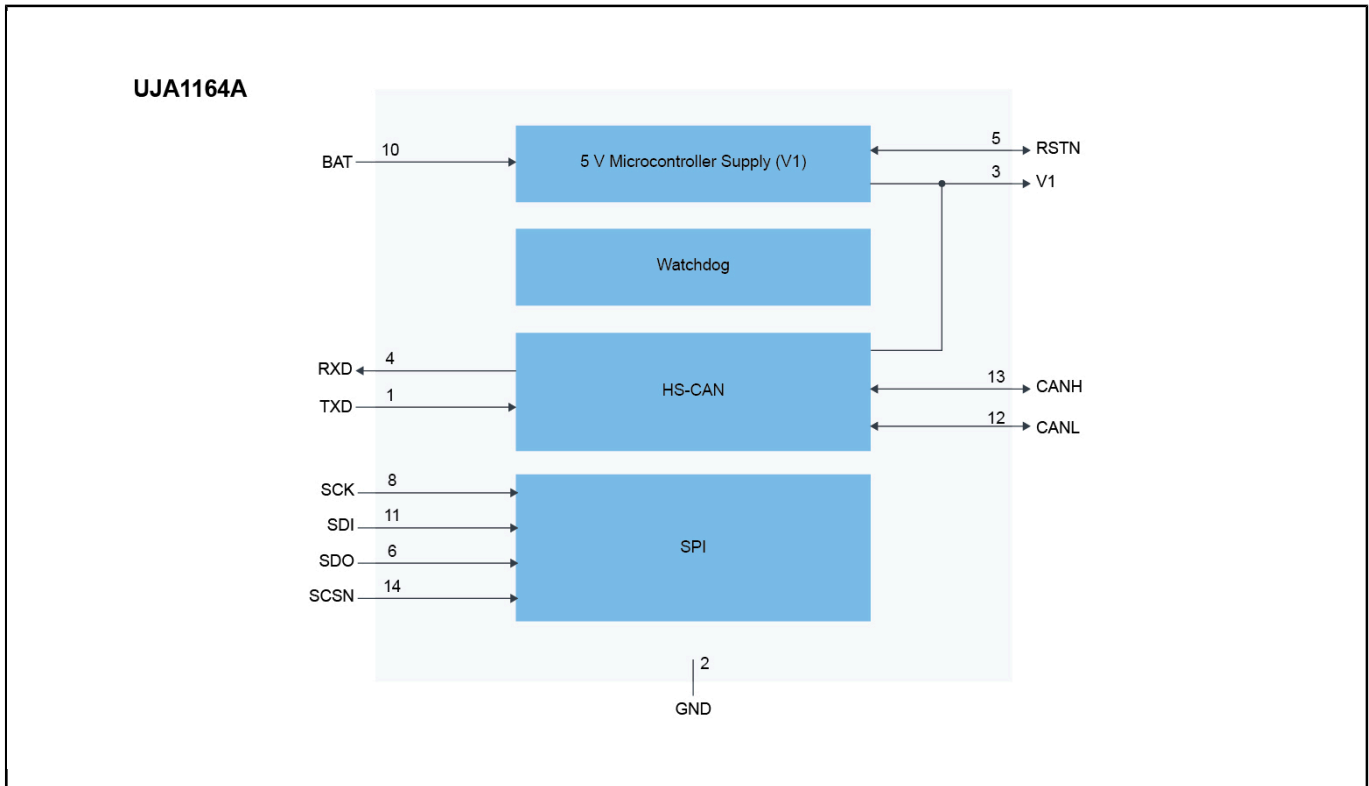

UJA1164ATK

Last Updated: Jan 24, 2022

The UJA1164ATK is a mini high-speed CAN system basis chip (SBC) containing an ISO 11898-2:2016 and SAE J2284-1 to SAE J2284-5 compliant HS-CAN transceiver supporting CAN FD up to 5 Mbit/s and an integrated 5 V/100 mA supply for a microcontroller. It also features a watchdog and a serial peripheral interface (SPI).

The UJA1164ATK can be operated in very-low-current standby mode with bus wake-up capability and supports 11898-2:2016 compliant autonomous CAN biasing.
