15 W Buck Wireless Charging Receiver Reference Design

WPR1500-BUCK

Not Recommended for New Designs
Recommended to use: WPR1500-HV

Last Updated: Nov 1, 2023

The 15-watt wireless charging receiver reference design with buck architecture uses the NXP® MWPR1516 receiver controller IC to manage and perform all control functions necessary to implement a wireless charging receiver solution.

Complies with the Wireless Power Consortium's (WPC) latest Medium Power Working Group (MPWG) specification and can be charged by any Qi-certified transmitter devices.
