

# i.MX 8XLite Applications Processors for Telematics, V2X and Industrial Control

## iMX8XLite

### Preproduction

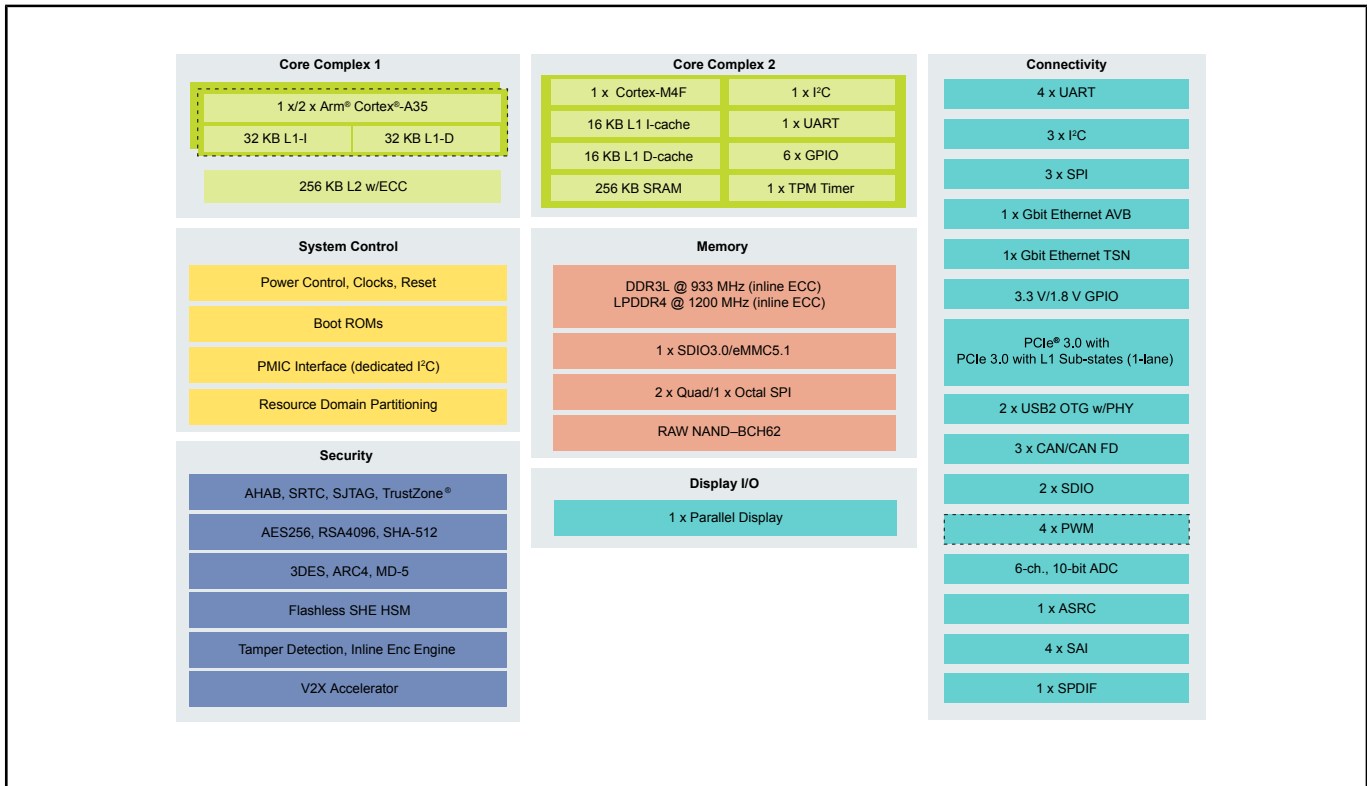

This page contains information on a preproduction product. Specifications and information herein are subject to change without notice. For additional information [contact support](#) or your sales representative.

Last Updated: Nov 8, 2022

Extending the scalable range of the i.MX 8 series, the i.MX 8XLite family is composed of common subsystems and architecture from the higher-end i.MX 8X family, establishing a range of cost-performance scaling and high levels of software reuse. Supported with an expansive software ecosystem and dedicated Hardware Security Modules to enable telematics solutions and vehicle-to-everything (V2X) applications with a single processor while retaining efficient performance.

i.MX 8XLite applications include vehicle telematics, vehicle-to-vehicle (V2V) and vehicle-to-infrastructure (V2I) solutions, road infrastructure connectivity, industrial equipment and building control.
