## Access your screening results online

## Securely view your results online after your screening...

Your screening results will be confidentially and securely available online within 2-3 days of your event (pending additional tests ordered). You can expect an email from notifications@empower.health notifying you that your results are ready. This email will be sent to the email address associated with your empower.health account. To manually check for your results, follow the steps below:

- 1. Sign into your account at <a href="https://empower.health">https://empower.health</a>
- **Participants who did <u>not</u> register online:** Complete "New User" fields and enter client code: **nxp** A verification email will be sent. Verify your email address to activate your account.
- **Participants who registered online:** If you previously created an account, sign in under "Welcome Back!" If you have an NXP account through Virgin Pulse, access your results by signing in with the directions below.

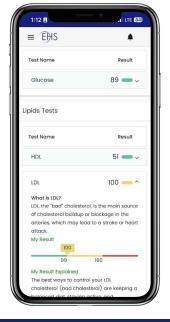

**OR** Sign into your account at <a href="https://iam.virginpulse.com">https://iam.virginpulse.com</a> and navigate to Benefits > View All > EHS (Empower Health Services)

Click on the "start now" button to enter the EHS Dashboard.

2. On the EHS Dashboard, select "MyResults" from the blue navigation bar to see if your results are available

Once your results are ready, you can download/print your lab report and securely fax the report to your primary care physician. From the EHS Dashboard, select "MyResults" > "Lab Results" > "Fax LabCorp Report" to share results with your doctor!

## Explore educational resources...

Learn more about your results and explore resources on the empower.health portal!

- **Emmy™ Education** Our private search engine, Emmy™, provides educational content. Learn more about diabetes prevention, heart health, and more.
