This document describes issues identified in the MCUXpresso IDE after the release of this product. The content here is supplemental to that provided in the release notes and KnownIssues.txt files provided in the product installation. This file may be updated periodically and after a new release.

Last update: 28-Jul-2023

IDE 11.8.0
* No addendum

IDE 11.7.1
* [SEGGER J-Link] FreeRTOS GDB task awareness not working in the current integrated J-Link Software Package v7.86e.
* [PEmicro] Trustzone projects do not work with a PEmicro probe.

IDE 11.7.0
* No addendum

IDE 11.6.1
* No addendum

IDE V11.6.0
* No addendum

IDE V11.5.1
* No addendum

Legal information

Definitions

Draft – A draft status on a document indicates that the content is still under internal review and subject to formal approval, which may result in modifications or additions. NXP Semiconductors does not give any representations or warranties as to the accuracy or completeness of information included in a draft version of a document and shall have no liability for the consequences of use of such information.

Disclaimers

Limited warranty and liability – Information in this document is believed to be accurate and reliable. However, NXP Semiconductors does not give any representations or warranties, expressed or implied, as to the accuracy or completeness of such information and shall have no liability for the consequences of use of such information. NXP Semiconductors takes no responsibility for the content in this document if provided by an information source outside of
NXP Semiconductors. In no event shall NXP Semiconductors be liable for any indirect, incidental, punitive, special or consequential damages (including – without limitation – lost profits, lost savings, business interruption, costs related to the removal or replacement of any products or rework charges) whether or not such damages are based on tort (including negligence), warranty, breach of contract or any other legal theory. Notwithstanding any damages that customer might incur for any reason whatsoever, NXP Semiconductors’ aggregate and cumulative liability towards customer for the products described herein shall be limited in accordance with the Terms and conditions of commercial sale of NXP Semiconductors.

Right to make changes – NXP Semiconductors reserves the right to make changes to information published in this document, including without limitation specifications and product descriptions, at any time and without notice. This document supersedes and replaces all information supplied prior to the publication hereof.

Suitability for use – NXP Semiconductors products are not designed, authorized or warranted to be suitable for use in life support, life-critical or safety-critical systems or equipment, nor in applications where failure or malfunction of an NXP Semiconductors product can reasonably be expected to result in personal injury, death or severe property or environmental damage. NXP Semiconductors and its suppliers accept no liability for inclusion and/or use of NXP Semiconductors products in such equipment or applications and therefore such inclusion and/or use is at the customer’s own risk.

Applications – Applications that are described herein for any of these products are for illustrative purposes only. NXP Semiconductors makes no representation or warranty that such applications will be suitable for the specified use without further testing or modification. Customers are responsible for the design and operation of their applications and products using NXP Semiconductors products, and NXP Semiconductors accepts no liability for any assistance with applications or customer product design. It is customer’s sole responsibility to determine whether the NXP Semiconductors product is suitable and fit for the customer’s applications and products planned, as well as for the planned application and use of customer’s third party customer(s). Customers should provide appropriate design and
operating safeguards
to minimize the risks associated with their applications and products. NXP
Semiconductors does not accept any liability related to any default, damage, costs or problem which
is based on any weakness or default in the customer’s applications or products, or the application or use by
customer’s third party customer(s). Customer is responsible for doing all
necessary testing for the customer’s applications and products using NXP Semiconductors products in
order to avoid a default of the applications and the products or of the application or use by
customer’s third party customer(s). NXP does not accept any liability in this respect.

Terms and conditions of commercial sale — NXP Semiconductors products are sold subject
to the general terms and conditions of commercial sale, as published at
https://www.nxp.com/profile/terms, unless otherwise agreed in a valid written individual agreement.
In case an individual agreement is concluded only the terms and conditions of the respective agreement
shall apply. NXP Semiconductors hereby expressly objects to applying the customer’s general
terms and conditions with regard to the purchase of NXP Semiconductors products by customer.

Export control — This document as well as the item(s) described herein may be
subject to export control regulations. Export might require a prior authorization from
competent authorities.

Suitability for use in non-automotive qualified products — Unless this data sheet expressly
states that this specific NXP Semiconductors product is automotive qualified, the product is
not suitable for automotive use. It is neither qualified nor tested in accordance with automotive
testing or application requirements. NXP Semiconductors accepts no liability for
inclusion and/or use of non-automotive qualified products in automotive equipment or applications.
In the event that customer uses the product for design-in and use in automotive applications to
automotive specifications and standards, customer (a) shall use the product without NXP Semiconductors’
warra
from customer
design and use of the product for automotive applications beyond NXP
Semiconductors’ standard
warranty and NXP Semiconductors’ product specifications.

Translations — A non-English (translated) version of a document, including the
legal information
in that document, is for reference only. The English version shall prevail in
case of any
discrepancy between the translated and English versions.

Security — Customer understands that all NXP products may be subject to
unidentified
vulnerabilities or may support established security standards or specifications
with known
limitations. Customer is responsible for the design and operation of its
applications and
products throughout their lifecycles to reduce the effect of these
vulnerabilities on customer's
applications and products. Customer’s responsibility also extends to other open
and/or
proprietary technologies supported by NXP products for use in customer’s
applications. NXP
accepts no liability for any vulnerability. Customer should regularly check
security updates from
NXP and follow up appropriately. Customer shall select products with security
features that best
meet rules, regulations, and standards of the intended application and make the
ultimate design
decisions regarding its products and is solely responsible for compliance with
all legal, regulatory,
and security related requirements concerning its products, regardless of any
information or
support that may be provided by NXP. NXP has a Product Security Incident Response
Team
(PSIRT) (reachable at PSIRT@nxp.com ) that manages the investigation, reporting,
and solution
release to security vulnerabilities of NXP products.

NXP B.V. - NXP B.V. is not an operating company and it does not distribute or
sell products.
