

CodeWarrior™ Development Suite

Quick Start

The CodeWarrior Development Suite provides access and technical support to a multitude of CodeWarrior products.

This quick start explains how to register your CodeWarrior Development Suite (Section A). Section B explains how to activate and install one of your products. Section C describes other items that come with your CodeWarrior Development Suite, and Section D discusses the available purchase options. Section E contains the Technical Support Certificate.

NOTE The Registration, Activation and Installation process in this quick start replaces the Registration, Activation and Installation process in the individual product quick starts.

NOTE For additional information on any of the topics in this quick start, refer to the Licensing and Activation FAQs at www.freescale.com/CodeWarriorSuitesFAQ

Section A: Register your CodeWarrior Development Suite

Each CodeWarrior Development Suite contains a number of CodeWarrior products. The most up-to-date information about the available products in your CodeWarrior Development Suite can be found at www.freescale.com/CodeWarriorSuites

After purchasing your CodeWarrior Development Suite, you must register the Suite Entitlement ID to access the CodeWarrior products in your CodeWarrior Development Suite.

To register your CodeWarrior Development Suite:

1. Go to www.freescale.com/CodeWarrior/Registration — Registration page appears
2. Click on Register and Activate your CodeWarrior Product — Log-in page appears

Use your existing My Freescale account ID (email address) and password or create a new account — Freescale associates this account with your registered products

4. Click on Log in button — Licensing Activation System page appears
5. Enter Suite Entitlement ID, located on front of CodeWarrior Development Suite Quick Start carrier, in text box

My CodeWarrior Register Product

User: b09001 Server Time: 07-Apr-2008 11:59:32 MST

Licensing Activation System

This system will allow you to register / activate your software product and retrieve your license.

Enter Registration Code / Entitlement Id for your Product*

Examples:
CWP-PRO-NL_1-387604471
FSL-13d9-3f41-13b7-03b3-102c-c8
AB693-1DC57-2AB67-E014C

Continue Activation >>

6. Click Continue Activation — Manage License page appears
7. If necessary, determine if your CodeWarrior Development Suite is node locked or floating by going to “How do I determine if my CodeWarrior Development Suite is Node Locked or Floating?” FAQ at www.freescale.com/CodeWarriorSuitesFAQ
8. If for a node locked license:
 - a. Select your Host ID Type
 - b. Enter your Host ID in text box

NOTE For more information on how to read your USB Dongle ID, go to “How do I read my USB Dongle ID with FlexIm?” FAQ at www.freescale.com/CodeWarriorSuitesFAQ

9. If for a floating license, enter Host ID from the server host running FLEXIm

submit — Registration and Licensing System page appears

11. Fill in product/project information
12. Click Continue — Licensing Activation System page appears, allowing you to check your data
13. Click Continue — Thank You page appears, thanking you for registering your CodeWarrior Product

NOTE Retain your Suite Entitlement ID for future support questions or any issues that you may have.

Section B: Activate and Install One of your Products

NOTE To continue with product activation from Thank You page, click on Suite Details Page link, and proceed to step 5.

To activate one of your CodeWarrior products:

1. Go to www.freescale.com
2. Log in to My Freescale located in upper right corner — Your personal homepage appears
3. Under My Secure Applications, click on CodeWarrior Licensing — My Products page appears
4. Click on License Options — Suite Details Page appears

Suite Details Page shows registered CodeWarrior Development Suite, including Suite Entitlement ID, License Type and Technical Support expiration date. It also shows a list of products you are entitled to license. When you activate a product, that product moves from the list of products you are entitled to license to the list of licensed products.

Part	Req. Code	License Type	Suite Options	Support
CWP-STANDARD-NL	CWP-STANDARD-NL_1-387604501	Perpetual-NodeLocked	Rehost Renew Support	Submit Service Request
Registered Date: 04/07/2008 Support Expires: 04/07/2009				
Products you are entitled to license:				
Part Number	Version	Description		
CWS-568-CX	1.0	CodeWarrior DS for Freescale 56800/E Hybrid Controllers Standard Edition	Get License	
CWS-68K-CC	1.0	CodeWarrior Development Studio, 68K Compiler Only	Get License	
CWS-H08-STDED-CX	1.0	CodeWarrior for HC(S)08 Standard Edition	Get License	
CWS-H12-STDED-CX	1.0	CodeWarrior for HC12 Standard Edition	Get License	
CWS-MCF-STDED-CX	1.0	CodeWarrior Development Studio, ColdFire Standard Edition	Get License	
CWS-MPC-SXXDB-CX	1.0	CodeWarrior for MPC5XX Debug Only	Get License	
CWS-PPC-CMWDDB-CX	1.0	CodeWarrior DS for Power Architecture, Debug Only Edition (Windows Hosted)	Get License	
CWS-PPC-LLPDB-CX	1.0		Get License	

5. Locate product you want to activate

6. Click Get License

7. If Registration and Licensing System page appears, fill in product/project information, and click Continue — Download and License your Product page appears

Download and License your Product

Step 1: Download the latest version of the software by clicking on the link below

(NOTE: Software can also be installed using the CD if you ordered a physical shipment. However, it is recommended that you download the latest version)

To download the latest version of CodeWarrior for HC(S)08 Standard Edition [CLICK HERE](#)

Step 2: Download and install the license for your product

- Determine your host machine OS and select the appropriate button below to download your license file (NOTE: You will be sent an email with links to retrieve your license file as well for your records)
- To install the license file, be sure to either:
 - Follow the directions here [IMPORTANT INFORMATION: Installing your license file](#)
 - OR
 - Follow the directions provided in the email sent
- If you need further guidance or have additional questions, please be sure and visit our [Licensing FAQ](#).

[My CodeWarrior](#)

[Suite Details Page](#)

[Download License \(Windows\)](#)

[Download License \(Unix\)](#)

8. Ensure your product is installed, either from your CD or download the latest version of CodeWarrior for your product from link on Download and License your Product page

Download License (Windows) or Download License (Unix) as appropriate — Online license profile updates to include new product

10. Save license file, `license.dat`, according to instructions in link or in License Activation Confirmation email

NOTE Activating any product generates an email with **License Activation Confirmation** in the subject line. This email includes a link to the license file and instructions for successful license installation.

NOTE License provided when activating is always keyed to latest version of software. Check version number on your CD to ensure that you have the latest version. If not, click **Version Renewal** to download latest version.

11. To verify product activation, click Suite Details Page button at bottom of Download and License your Product page — Activated product appears in Products that you have licensed section on your Suite Details Page

CodeWarrior Standard Suite - Perpetual details Page.

Part	Reg Code	License Type	Suite Options	Support
CWP-STANDARD-NL	CWP-STANDARD-NL_1-387604501	Perpetual-NodeLocked	Rehost	Submit Service Request

Newly licensed product moves to Products you have licensed section

NOTE You can activate any or all products within your CodeWarrior Development Suite. For each product you wish to activate, repeat steps above.

ave not already restarted your computer, restart now —
operating system reboots, which ensures that CodeWarrior IDE
finds newly installed drivers

Congratulations!

**You have successfully activated and installed
one of your CodeWarrior products in your
CodeWarrior Development Suite.**

Section C: What else am I Entitled to with the Purchase of my CodeWarrior Development Suite?

It is now possible to rehost (move) your CodeWarrior Development Suite to another computer, repair a damaged license, and obtain free product version upgrades without contacting Freescale Customer Support. For more information on these topics go to “What else am I entitled to with the purchase of my CodeWarrior Development Suite?” FAQ at www.freescale.com/CodeWarriorSuitesFAQ

Section D: Purchase Options

Three different pricing levels of CodeWarrior Development Suites are available:

- CodeWarrior Basic Suite — Compiler upgrades to special editions, Linux® Applications Editions and Flash Programmers
- CodeWarrior Standard Suite — Selectively-featured development suite
- CodeWarrior Professional Suite — Full-featured development suite

You can upgrade a perpetual or subscription CodeWarrior Basic Suite to a CodeWarrior Standard or CodeWarrior Professional Suite. You can upgrade a CodeWarrior Standard Suite to a CodeWarrior Professional Suite. For information on upgrading your CodeWarrior Development Suite to the next level, renewing your technical support, or renewing your subscription, go to “What purchase options are available with my CodeWarrior Development Suite?” FAQ at www.freescale.com/CodeWarriorSuitesFAQ

Section 2: Technical Support Certificate

The holder of this technical support certificate and a valid license of a Freescale™ CodeWarrior™ Development Suite is entitled to one year of technical support and maintenance. The year of technical support begins on the date of registration of the suite. For the CodeWarrior Perpetual Suite, the first year of support and maintenance is included in the price of your initial purchase and must be renewed yearly to continue to receive the benefits below. For the CodeWarrior Annual Subscription Suite, support and maintenance is always bundled with the purchase of the CodeWarrior Development Suite, but the subscription itself must be renewed.

In addition to our regular support services, you receive:

- Access to Technical Support via email, web and phone
- Ability to query outstanding service requests submitted by the customer
- On-line support services
- On-line FAQ

CodeWarrior Technical Support and Maintenance provides the customer:

- Service Packs in support of new silicon releases
- Software Patches and Updates
- FREE product version upgrades within the development suite, as they become available
- Additional CodeWarrior products within the development suite
- License Management capabilities, such as rehosting

NOTE CodeWarrior Perpetual Suite provides License Management capabilities without renewing support and maintenance.

Accessing Support

For technical support regarding license-related issues, contact Freescale via the Support website www.freescale.com/support. Open a Service Request using Category: Technical, and Topic: License Issues

For technical issues related to the CodeWarrior Development Suite, open a Service Request using Category: Technical Request, and Topic: CodeWarrior.

For more information about CodeWarrior products, visit: www.freescale.com/codewarrior.
