

Age 65+ Retirees, Family Members, and Survivors

As part of our commitment to provide retirees with access to affordable, quality health care, we conducted a careful review of our retiree group health plans. We also looked at the many individual health plan options that have become available to retirees in the individual insurance market. We found that retirees who are age 65 and eligible for Medicare can find choice, flexibility, and value by purchasing health care coverage in the individual insurance market.

Medicare-eligible retirees will enroll for medical benefits in a new way by using the Aon Retiree Health Exchange™. The Aon Retiree Health Exchange is a leading Medicare service that helps retirees navigate the individual Medicare marketplace with unbiased, licensed, and certified Benefits Advisors who will work one-on-one with retirees. You just pay for the coverage that you choose. Your Benefits Advisor will help you explore your health plan options and enroll in the plan that best meets your health and financial needs. They are also available to provide ongoing support after enrollment.
