Business Line Power Management

26th January 2006

Dear Customer,

Re: DN56 - Change to Availability Status of SOD87 Products.

Philips Semiconductors are discontinuing the range of rectifier and zener TVS products in the SOD87 diode package as announced in discontinuation notice DN56. Withdrawal of the rectifier and zener TVS products will comply with Philips Semiconductors product discontinuation guidelines, meaning last order acceptance will be end of June 2006 and last delivery date will be latest end of December 2006.

The production capability for these products is capacity limited and a number of technical factors are likely to impinge on this capacity during the second half of 2006. In view of these increased supply side risks, a review of the availability status of these products has been undertaken and a decision made to amend the status to Code 2 – Limited Availability. In order to ensure the highest possible degree of confidence in the supply of Last Time Buy requirements, it is strongly recommended that customers submit their last time orders by 31st March 2006. A list of affected products is appended below.

If you have any questions, please do not hesitate to contact your Philips Semiconductors account manager.

Yours faithfully,

David Compton
